Mistletoe Magic

Long before Christianity, pagans believed the mistletoe to have special healing powers. The early Christians used mistletoe to adorn the altars at Christmas, as a symbol of the Lord's healing power. Early Christians also exchanged the kiss of reconciliation before receiving holy sacrament at the altar, a practice which led, perhaps, to the modern custom of a kiss under the mistletoe.

A later belief suggested that mistletoe could bring bad luck. If mistletoe boughs put up for Christmas are not removed by Candlemas Eve (February 1), this belief holds that each leaf will bring forth a goblin.

APPOMATTOX WINS TWO GAMES

In varsity basketball played Tuesday night at Rustburg, the Appomattox Raiders beat the Red Devils of Rustburg in both games.

The girls team beat Rustburg by a score of 34-22 and the boys won out by a score of 52-34.

Both teams will travel to Brookville Friday night for games there.

Manger Is Theme Of Latin Yule

Though Santa and gaily decked trees often appear nowadays in Central and South America, Christmas is traditionally a time for religious observances.

Mass, at midnight on Christmas Eve or early Christmas Day, forms the heart of the holiday in Latin America, and the creche or manger scene marks the season throughout churches and homes, say the editors of the Encyclopedia Americana.

Bountiful feasts, processions and other special events may provide a festive note, but custom says that gift-giving time is Three Kings' Day — Twelfth Night, January 6th, when the Wise Men brought their gifts to Jesus.

Children put their shoes under the bed or in the window, hoping to have them filled with toys and gifts. Water and hay are set out for the Three Kings' horses or camels.

While many Latin American countries share these traditions and celebrate Christmas in similar ways, each country also has its own special festivities.

Oakville Ruritans Selling Christmas Trees

Many Appomattox residents have been by the sales lot adjacent to Appomattox Drug Store and selected their Christmas tree from the big selection available. As in previous years, the Oakville Ruritan Club is selling trees to help finance community service projects. One of the members, George Hughes, is pictured above displaying some of the trees available. Sales times are 2–8 week days and 8 a.m. to 8 p.m. Saturday. Sales will continue until December 23. Come by and pick out your tree if you haven't already done so.

A Song For Christmas

Brenda Bowling and Danny Scruggs, the talented song leaders in Mrs. Oliver's 5th grade 4-H Club, led the group in Christmas carols. In the background you see the Club Key. The smaller key which is attached to the Club Key has on it the word "RESPECT." This is one of the four "key words to getting along with people" which will be demonstrated to all members of the 4-H Club each month.

Mrs. Oliver has a fine group of 4-H'ers and has done a remarkable job in organizing and helping them with their projects, demonstrations, and illustrated talks, according to Mr. Jesse R. Ford, Extension Agent, Agriculture.

30,000 Virginians Pledge Eyes

Richmond, Va. – Old Dominion Eye Bank, Lions-supported receiving station and distribution center for human eye tissue, used for sight-restoring corneal transplants, has announced that over 30,000 citizens of eastern Virginia have now pledged their eyes on death to that organization.

In the 11 months ending June 1, a total of 2883 new eye donor pledges were received by the eye bank – most of them solicited by members of Lions Clubs in the eastern half of the state which is served by Old Dominion Eye Bank. The eye bank receives its basic financial support from the Lions Clubs and the signing up of eye donors is a primary project of the 7,000 Lions members of this region.

This year's effort by the Lions members in soliciting new eye-donor pledges resulted in an increase of more than 10% in the total number of pledges on file.

Although this year's increase in pledges received has been a historic high for the eye bank, its Executive Director, R. Kenneth Hudgins, issued an appeal for much greater participation in this program by the general public. Hudgins said that the need for human eye tissue for sight - restoring eye transplants is far greater than the supply and that the only visible means of breaching this vital gap is an additional sizable increase in the number of eye donors. Those wishing to pledge their eyes on death for this purpose, he said, may do so by writing Old Dominion Eye Bank, Richmond Eye Hospital, Richmond, Va. or by contacting any member of a Lions Club.
